- Friday 11:00 - 13:00
- Friday 13:30 - 15:30

Description

The company is engaged in the development of complex web and mobile applications, mainly based on open source technologies. Since we have established a very disciplined and responsible business model that has been recognized by customers around the world we managed to achieve a successful long-term cooperation with many companies from the United States, Sweden, Austria, Netherlands and many other countries worldwide. Today, over 90% of our business is transacted abroad, and also we opened our offices at Halmstad-Sweden and Chicago-USA. The company employs almost 20 people.

Offer

Software development services

We offer following services to our clients:

- Development and maintenance of complex web and mobile software
- Simple website design, development and maintenance
- Web services and mobile applications (Android & iOS)
- UI/UX, graphic design
- SEO
- Project management

DVC Solutions covers the entire process of web or mobile development, which means that we have the capacity for executing total projects in this area, ie. to provide following roles in this process:

1. Project manager
2. Business analyst
3. System/software architect
4. UI/UX designer

5. Graphic designer
6. Frontend developer
7. Backend developer
8. Mobile developer (Android and iOS)
9. Quality assurance expert
10. Business developer
11. Support/maintenance expert

It is important to note that we can cover a large number of (mostly) open-source web and mobile technologies and programming languages using our knowledge and expertise, that are named as following:

- PHP (Composer, Symphony, Laravel, Zend, Zend2, CodeIgniter, CakePHP)
- HTML5, CSS3
- JavaScript (jQuery, Angular, Node, React)
- Native Android and iOS
- Java
- CMS tools (WordPress, PrestaShop, WooCommerce)
- Web services (API, SOAP, JSON, XML, REST)
- Atlassian package (Bitbucket, JIRA, Confluence, Trello)
- Linux, Automation (Vagrant, GIT)
- Web services (Apache, NGINX)
